Paradise in Peril:

I built faith in your wisdom and leadership. I bought into your Blue Sky renewable energy. I invested in your Solar Power Incentive program. I was impressed to believe that the PSC and the Rocky Mountain Power executive suite had the higher vision that our health and well-being ranked above the want for profits. How naive of me? We have been given so much that we really have nothing to give back and preserve? Please regain our confidence that you are the correct leaders by never again appearing to block or impose charges on clean energy initiatives like rooftop solar. Please search within yourselves to find the courage to elevate your objectives and vote this measure down. We will all cheer it as ethical turning point in the right direction toward the recovery of our valley. Show us that you can really be trusted to protect paradise over profits.
